Mechanical Engineer Position

Byce & Associates Inc, an award winning architectural and engineering firm in Kalamazoo Michigan with a diverse and growing portfolio, is currently seeking a Mechanical Engineer to work on a variety of project types.

Basic Qualifications

- Bachelors of Science in Mechanical Engineering from ABET Accredited college or university.
- Knowledge/experience in HVAC, Plumbing and Fire Protection design. 0-3+ years experience
- Engineer in Training (EIT), preferred.
- AutoCAD experience preferred.
- Revit experience preferred.

Job Responsibilities

- Mechanical engineering design and layout of systems for projects such as commercial, industrial, correctional, and parks.
- Assists in the development of probable construction cost estimates for projects within the department.
- Assists in the analysis of reports, maps, drawings, tests and aerial photographs to plan and design projects.
- Prepares design computations and quantity estimates.
- Performs design of portions of non-routine projects or entire routine projects under direction of project manager.
- Assists in the preparation of reports, specifications, plans, construction schedules and permits for projects.
- Provides technical support to other staff in area of expertise.
- Performs drafting on a regular basis to reduce designs to final drawings.
- Understands terminology and other concepts related to engineering and construction practices.
- Responsible for job specific quality system tasks as defined in Project Management manual.
- Periodic Site visits.
- Assist in the review contractor submittals and respond to contractor questions during construction.
- Strong organizational and communication skills.
- Self-motivated and ability to work alone and on teams.
- Ability to meet deadlines.
- Positive attitude
